LEGISLATIVE UPDATE

2020 General Legislative Session

Issue #2

February 9, 2020

Welcome to the 2020 Legislative Update

This issue includes highlights of week two, what we can expect in the week ahead, and information for protecting wildlife and the environment. Please direct any questions or comments to Steve Erickson: erickson.steve1@comcast.net.

About the Legislative Update

The Legislative Update is made possible by the **Utah Audubon** Council and contributing organizations. Each Update provides bill and budget item descriptions and status updates throughout the Session, as well as important Session dates and key committees. For the most up-to-date information and the names and contact information for all legislators, check the Legislature's website at www.le.utah.gov. The Legislative Update focuses on legislative information pertaining to wildlife, sensitive and invasive species, public lands, state parks, SITLA land management, energy development, renewable energy and conservation, and water issues. The Update will be distributed after each Friday of the Session. We may also send out additional Action Alerts during the Session as issues arise that need quick action. We hope each Update

issue will prepare you to call, email or tweet your legislators with your opinions and concerns!

ACTION ALERT!

Two bills of concern are expected to be heard in committees this week. SB 41 would create a sales tax exemption for – or a corporate tax credit in an expected substitute version – for oil and gas extraction and for pipeline or an electric generation and transmission facility construction. HB 233 could open the door to disposal of depleted uranium at Energy Solutions' landfill by charging fees that would go to a worthy cause. **Urge legislators to oppose both bills!**

Both the predator removal bills we opposed - HB 125 and HB 228 which were highlighted in last week's update – passed the House NRAE Committee and are on the House floor calendar. Keep the calls coming to oppose these unnecessary, unscientific and ethically questionable approaches to predator management.

News of Week Two (Week # 2)

Two bills we support are moving rapidly through the process to become law. SB 63 will open up streambed access to a 40-mile stretch of the Weber River, and SB 26 would create Utah's first water banks to allow water rights holders to temporarily lease water to other users.

SB 88, the DEQ recodification bill, moved to the Senate floor for consideration. While our initial concerns about hazardous waste disposal were allayed, air quality advocates are asking for amendments to address public involvement and transparency in decision-making. Likewise, we are hoping to further amend to improve HB 41 State Water Policy, though its backing of the Lake Powell pipeline and Bear River development means we will continue to oppose it. We're keeping an eye on SB 100, which may result in making SITLA public lands decisions even less transparent than they are now.

Several new bill files have been opened – some promising, some troubling. Of interest are bills addressing climate change, the inland port, banning wolves, studying wildlife corridors, and addressing oil, gas and mining and solid and hazardous waste issues.

Budget News

Lawmakers concluded work on the “base budgets” for state government for FY 2021 and FY 2020. As House Speaker Brad Wilson stated, “Nineteen billion [dollars] down, one billion to go”. The budget work now shifts to spending “new” money – both one-time and ongoing – for both the current and next fiscal years.

Our biggest priority for the budget this year is funding a full-time Great Salt Lake Coordinator position in the Division of Forestry, Fire and State Lands. The position would be funded by \$110,000 in ongoing funds from the Sovereign Lands Restricted Account. This Request for Appropriation (RFA), will likely be heard either Wednesday, 2/12 or Friday 2/14. We will also be supporting funding for phragmites and other invasive species removal and mitigation, as well as funding for open space preservation. Other appropriations requests that we will support include funding for water loss accounting (HB 40), water metering (\$1 m. one-time), and funding support for water banking and watershed councils.

What's Ahead

Appropriations Subcommittees will continue to meet in the mornings this upcoming week. As bills begin to stack up on the floor calendars, floor time has been added. Both chambers will be on the floor from 11:00-12:00 and from 2:00-3:30 daily. Here are the calendars for the 3rd week:
